## *Indoor Classroom*

Our class sure has been busy the last two months! In the area of practical life the children have arranged flowers, scooped and tonged yarn spaghetti, strung small beads, and hung items up with closepins. Our art items have been painting and using a cookie cutter with playdoh. Some of the children have been working hard to recognize numbers! We have been using sandpaper numbers for children to touch and identify. Because the children get to trace the numbers with their fingers, it's a great pre-writing activity.

We also had some special visitors last month.

Each year the preschool classrooms get a handful of eggs to incubate and hatch. Our classroom got to greet two of the chicks from Miss Christie's class- one yellow and one brown. The children were very excited to see and hear these chicks.

## *Outdoor Classroom*

Warmer weather means we are spending more time outside. We have even had an outdoor snack! So many of the children seem to enjoy playing together whether that's going down the slide together, climbing on the turtle, or throwing balls into the basketball hoop. The kids had a phenomenal time during the Egg Hunt! Big thank you to our parent volunteers who helped set up and redistribute eggs.

## *Circle Time*

It feels like our circle times have gotten shorter as the days have gotten nicer and the children's bodies have been craving big motor movements. Our spring time songs with Miss Jennifer have been about windy and rainy weather, planting and growing flowers, and about bunnies.
